

GITI4X4 AT200

AT200 is engineered for rugged off-road performance that combines enhanced puncture resistance, formidable all-terrain strengths and significant road-noise reduction capabilities.

EQUAL FORCE CASING DESIGN

Improves overall handling, lowers irregular wear, and increases tire life.

GITI4X4 AT200

FEATURES & BENEFITS

SUPERIOR ALL-TERRAIN TRACTION

- **Interlocking Tread Design:**
Multi-angled blocks bite into soft, uneven terrain for maximum grip
- **Zig-Zag Grooves**
Increase ground contact edges for superior traction on loose dirt and gravel

CONFIDENT SAND PERFORMANCE

- **Sand Dominator Structure**
A specialized casing and sidewall design provides stable flotation and prevents bead unseating at low pressures
- **Helical Ejection Ribs**
Actively channel and eject sand to prevent buildup and maintain momentum

RUGGED DURABILITY

- **Armored Shoulder Design**
Reinforced shoulder blocks protect against sidewall impacts, cuts, and abrasions
- **High-Strength Carcass**
Built with robust, high-tensile materials to withstand heavy loads and punishing impacts for an extended service life

ENHANCED RIDE COMFORT

- **Noise-Canceling Grooves**
Variable pitch design disrupts sound waves to reduce road noise
- **Vibration Control Design**
Wide grooves absorb impacts and regulate airflow for a smoother, quieter ride
